About OMBC

The Ole Miss Business Club (OMBC) is the largest business organization and second-largest student organization at the University of Mississippi, with more than 950 active members across majors and career interests.

Built around three pillars—Develop. Network. Launch.—OMBC connects students with the people, skills, and opportunities that prepare them for life beyond the classroom. Through executive speaker events, hands-on Skills Labs, networking opportunities, recruiting programs, and corporate partnerships, members gain practical exposure to industries, career paths, and business leaders.

OMBC works closely with executives, alumni, and corporate partners to create meaningful opportunities for students while building a strong pipeline of emerging talent for employers.

Our goal is simple: help Ole Miss students become more prepared, more connected, and better positioned to launch their careers.
